Luiz Fernando Rodrigues Vieira de Oliveira

Full-Stack Developer

+55 (37) 9 9170-1381 | linkedin.com/in/lfernandor991 | lfernando.r991@gmail.com

I am a Full-Stack developer focused on web development, currently improving my skills in JavaScript. Additionally, I am learning more about Golang and Rust in my free time. My goal is always to keep learning and put all my skills into practice to deliver the best work possible.

Professional Experience:

Chave 7, Uberlândia - MG 10/2024 - Now
Backend developer

- Responsible for creating and maintaining features for the company's application.
- Create new microservices and integrations.
- CI/CD with integration into third-party services.

Sphera Academy, Remote 03/2024 - 10/2024
Full-stack developer

- Development of the backend and frontend of a learning platform for students seeking to study abroad.
- Responsible for deployment and integration of cloud services such as AWS, Cloudinary, DigitalOcean, among others.
- Creation of landing pages.

4TH Dimension, Remote 12/2022 - 07/2023
Full-stack developer

- Maintenance, refactoring, and creation of new API endpoints for new features, enhancing the app's usability.
- Automations for sending messages via WhatsApp.
- Creation of campaigns with automatic message sending, allowing the client to configure it in the best possible way with: scheduling date, sending time, and sending speed. In addition, providing detailed campaign information such as: total sends, total failures, and sent messages.

Education:

Systems Analysis and Development - Estácio de Sá
Technology Degree - Completed
